WORK EXPERIENCE

Software Engineer
Manas Networks | Bengaluru

I actively contributed to a React-based IMSI Tracker project. Leveraging my proficiency in React. My responsibilities included collaborating with cross-functional teams, implementing user interface components, ensuring responsive design, and optimizing the overall user experience. Through my involvement in the IMSI Tracker project, I gained valuable experience in front-end as well as backend and honed my skills in React, contributing to the successful delivery of a robust and efficient tracking solution."
